PERSONAL PROJECTS

DevBook

- Team-2
- The project helps any department who is in need of other department developers to develop their work. Developers can put their requirements in our application so that others can see. By this, we make the list of candidates in our App. Interest one can send a request and can discuss in detail about their project and can proceed accordingly .

Farmer Assistant System for Early Disease Detection in Plants

- Team-3
- This model will detect disease in the plant by capturing a photo of a leaf and predicting the name of the disease by using a CNN.
